

## Hunslet RLFC

### Use of Photographic or recorded images.

Hunslet RLFC acknowledge government guidelines on the use of digital images and photographs. The Club endeavours to use:

- Images and photos in the "Public Domain" that are free.
- Stock images and photos made available from organisations who hold usage agreements with the RFL, as updated and changed from time to time.
- Our own Images and photos taken by our official photographers and videographer. Such images and videos taken on behalf of the Club shall be the joint intellectual property of the individual and the Club.
- Images and photos taken by individuals at any of our games or events that are subsequently made available to view online on their own social media platforms.
- Images and photos taken by other Club photographers that may provide permission.

Every effort will be made to contact, and credit where requested, the owners of any images or photographs used on this site, **other than those as identified as above**, for their permission to do so. Where the owner of any image or photograph used does not feel that they have been formally approached, or wishes to be credited for its use, please contact us directly.

All images and photographs are used in good faith and not for any financial gain.
